

Choral Group Schedule Annual Concert Tour

The Didsbury Choral Society will begin its series of spring concerts at Midway on Wednesday evening, April 3rd, sponsored by the Midway school. The following evening, they will be at the Crossfield United Church, where their concert is sponsored by the Sunday school. On Friday evening, April 5th, the society will present its program in the "Didsbury school auditorium; all concerts will start at 8 p.m.

The final concert in the series is to be at the Innisfail Legion hall on Wednesday, April 17.

The society gave its first presentation in April, 1952, and for the first few years devoted its talents to sacred music only. This year the members are presenting a varied program of sacred and secular pieces, which should be pleasing to the general public.

In addition to the group singing, the group are presenting extra numbers on the program in the form of solos, quartets, and also piano selections.

The society is non-denominational and six churches are represented among the 28 members. The director is Mr. Richard Carpenter, dean of music at the Mountain View Bible College.

Keep in mind the date, April 12, in the Didsbury school auditorium, and plan on hearing this local group.

Chitter-Chat

By Our High School Scribbler

Last week was really a week for basketball! On Monday, March 18, the D.H.S. boys defeated the Town Hallers by a score of 35-22. Then the following Wednesday, our Junior girls' team were hosts to Olds and defeated them 29-10.

Last Friday both senior teams travelled to Three Hills for a double header.

During the girls' game, the score was tied for most of the fourth quarter. However Prevost scored the winning basket to give us a lead of 21-20.

The boys' game was also very close but our fellows picked up during the last quarter to make the final score 36 to 33.

Didsbury baskets were made by Gail Gillie, Maureen Prevost, Ruth Burgess, Joyce Traub, for the girls, and Ken Traub, Ken Sillis, Ken Penner, Norman Clarke, Merv Martin and Norman Reimer for the boys.

Don't forget the high school party Friday night.

Alberta To Get Money Windfall

An all-day debate on hospital insurance ended in the House of Commons Monday night with an announcement by the government which would mean a \$40,000,000 windfall for Canada's three western provinces.

The Liberal government's hospital insurance program, first conceived at a party convention in 1919, was introduced as legislation with a great flourish by Health Minister Paul Martin.

But the Liberal desk-thumping had barely subsided before the three opposition parties plunged into a chorus of "too little and too late."

The federal scheme will become operative the day that six provinces representing more than half of Canada's population, proclaim legislation aimed at tying in with Ottawa's plan.

It seemed to be a distinct concession from the original stipulation — that the six provinces must have hospital schemes in actual operation before federal money was spent. That's where the \$40,000,000 comes in.

If the new policy speeds up implementation of the plan by one year Alberta will pick up an estimated \$14,000,000. Only five provinces, the western two plus Quebec and Newfoundland, have as far as to enter the program. B.C. alone represent 56 per cent of the population, well over the 50 per cent requirement.

The bill itself is assured of quick passage through the Commons. The opposition has made it plain their only objection to the plan is over its limitations.

Under the plan Ottawa will pay to each participating province its share of 25 per cent of the country wide annual cost for hospital services, plus 25 per cent of the individual province's per capita cost multiplied by the population covered.

It is aimed at equalizing the payments to the rich and poor provinces.

Mr. Martin said the formula will pay Alberta 46 per cent of its hospital costs. All of this averages out to Ottawa assuming half the cost of the nation's hospital bill.

The government's promise of hospital insurance plan will cover just about every medical cost to be incurred in hospital, except the doctor's bill.

Road Bans Now In Effect

Road bans within the boundaries of the Municipal District went into effect at midnight Monday. On some areas are up to 50 ft. but it is expected the restrictions will be extended shortly.

Areas under ban in M.D. 49 now take in Ranges 2, 3 and 4 west of the C.P.R. main line. Limit: 15000 lbs. gross weight. In ranges 5, 6 and 7 gross weight is cut down to 5000 lbs. gross weight.

MODERN NURSING...

A rewarding career!

Nursing Aide Trainees observing at the "Well Baby Clinic"

HIGH SCHOOL STUDENTS

Nursing today offers a variety of career opportunities surpassed by few professions. Nurses are employed in hospitals and public health agencies, in business and industry, in schools and universities, in government, armed forces and stewardess positions. Modern nursing has many aspects, each with slightly different requirements, different functions. But the rewards are the same—a fine education, assured income, opportunity for advancement, and the satisfaction of being needed. Even after you marry, you may continue in Nursing or resume your career at any time.

Agriculture Round The World . . .

What is a Chinese agricultural show like?

According to Mr. Bill Minor, Canada's assistant trade commissioner in Hong Kong, it is similar to a farm show you might see in Western Canada.

Mr. Minor, who will be heard on U.G.O. Ltd.'s "Agriculture 'Round the World" on Monday, April 1, found the poultry display at Hong Kong's recent annual agricultural show most comparable to a display that might be found in Canada. Most of the breeds represented were western and rivaled their Canadian counterparts in size and appearance.

The swine display showed a marked difference, particularly in native hog breeds. The native breed is small, has a large head, and the hog's mid section almost touches the ground. They

farrow large litters and are extremely disease resistant.

The farm implement display also differs considerably. Because the average acreage farmed by an individual is small, mechanization is limited. The most recent implement display included manure baskets, patty baskets and vegetable baskets. All farm equipment displayed was made of wood.

The major portion of Hong Kong's farm acreage is in an area located opposite the island on the mainland. Known as the "new territory," it was leased from the Chinese prior to World War II on a 99-year basis. Definite measures have been taken to increase the fertility of the land. Soil surveys were made shortly after the British returned to the island in 1945 in an effort to produce crops that would yield a maximum harvest.

Prior to the Japanese occupation most of the land was owned by a small group. In 1945, the crown colony set up a plan to aid tenants of the land to purchase acreage payable over a ten-year period. Today, most of the land is owned by the farmer.

Mr. Minor reports Hong Kong imports from Canada include wheat, flour, rubber, raw and processed metals, pharmaceuticals, fireworks and manufactured rubber products. Takwood is the major export of the colony to Canada.

The complete interview with Mr. Minor may be heard on "Agriculture 'Round the World" when Ron McCullough reports from Hong Kong Monday, Tuesday and Wednesday, April 1, 2 and 3. On Thursday he will be heard from Saigon.

It is what we learn after we think we know it all that really counts.

One time a man doesn't call a spade a spade is when he trips over one in the dark.

Community Club Canvass For Building Fund

Zella Community Club are in the process of raising funds to make an extension to the present community centre building. Merchants in Didsbury and Ods have co-operated very well and it seems like the new building is assured. It's going to be one of those places where any of us can go and enjoy ourselves. Listed below are a number of local businessmen who have made donations:

50-YEAR OLD SCHOOL BURNS TO GROUND

Bowden's four-room brick school burned to the ground there Sunday afternoon. Firemen were unable to halt the blaze which was noticed about 4 p.m.

The school would have been vacated in about a month's time when pupils were to move to a new 11-room school on the other side of town.

The school had served the community for more than 50 years. It was a two-storey building with full basement.

Just For The Record . . .

A passing glance at the provincial government release as regards highway construction planned for the future, which appeared in one of our leading daily newspapers one day last week, made us come to a full stop. Yes, they've committed themselves again, we are going to get that road fixed! That's what the man in charge said. No dates were included in the piece we read; we just hope again that our dreams will come true . . . this year!

Just For The Record . . .

Some lads, who apparently have nothing else to do but get into mischief, have been using their spare time to activate a little action in the speed of some of our canine friends in one area of the town. It has been noted before, by owners, by non-owners, and by by-standers, that dogs have their place but as a rule they never seem to be in the right place at the right time. However, turpentine is not the solution which will put them in the right place. Lay off fellas! . . . how would you like some turpentine in your soup?

Just For The Record . . .

Did you notice last week's issue where our friend "the cat" brought us up to date on the rest room deal? The black one says we are still a little short of chips to start work on the necessary building. The site has been decided on, all that's necessary now is . . . you know what!

A Few Doubts !!!

In spite of the sad experience of other provinces, and considering health and hospital insurance plans, the government of Ontario is suggesting such a scheme on the unfortunate taxpayers and assisting in making it possible for the Dominion minister of health and welfare to erect a similar monument to himself.

The taxpayers, perhaps, have only themselves to blame for what is about to happen to them. There has been no widespread demand in Ontario for government health insurance. At least 3,600,000 persons in the province, according to the government's figures, are already covered by some form of hospital insurance, and while there are some complaints about the voluntary schemes, no one knows anything about politics and government financing generally is likely to believe that a government scheme will be an improvement on the voluntary plans in efficiency, benefits provided or cost.

It is the apathy of taxpayers that has brought the government scheme upon them. With exceptions, they have let the few advocates of government insurance build up the impression that they alone were speaking for the majority of voters. The government, temperamentally socialist though nominally conservative, favored the scheme as a vote-buying measure, and felt it safe to proceed because it heard little protest from the inarticulate taxpayers.

On reading between the lines of the hospital proposal, as tabled in the Ontario legislature, one can discern some doubts that were present in the minds of those who framed it. It is pointed out that "the cost of hospital care is rising services the trend will continue upwards. Every effort must be made to continue these increases."

The text goes on to say that "the consideration of prudence, equity and efficient administration dictate a gradual approach to the achieving of universal coverage. The widest possible participation is not only desirable but essential in order that benefits be available and that the financial burden be evenly distributed. But the timing of the mandatory provisions must be left to the common sense and good judgment of the Ontario Hospital Services Commission which has the responsibility of administering the program."

This suggests that the plan will be supported by taxes on everybody in the province as soon as the commission decides that it needs more money than it can get from voluntary contributions.

ALBERTA TAXABLE; B.C. HOME FREE

Revenue Minister McCann said Monday the federal government regards provincial disability payments in Alberta as taxable income.

However, payments under British Columbia's proposed plan of municipal tax rebates will not be taxed. He said in the Commons the advice of his officials is that the Alberta payments, coming out of oil and gas royalties paid to the province, are income and therefore taxable.

However, unlike dividends paid corporations, the Alberta government dividends will not be subject to a 20 per cent tax allowance or to depletion allowance.

Alberta proposes payments totaling \$11,000,000 to all its residents aged 21 or more who have lived in the province more than five years.

The B.C. plan, he said, is in the form of a municipal tax rebate and therefore not taxable by the federal government. The government will pay the municipalities \$28 for tax rebates claimed by each household.

Best wishes to Robert Wilshusen, who has been a patient in the local hospital for the past few weeks suffering from an ear infection.

Micky Baudistel underwent an operation for adenoids in Didsbury hospital last weekend. Best wishes for a speedy recovery.

Mrs. Allan Vipond and Mrs. Herbert Goetjen attended the Bill Weidner home last Wednesday evening, judging the tarts and pickles for the group.

A number of relatives and friends from this district and other places in the province were seen in attendance at Mr. Topping Sr.'s funeral held from Westcott United church last Thursday afternoon.

Most cattlemen from this district are off to the big annual bull sale in Calgary this week.

The Wishusen and White families were Saturday night guests at the Herbert Goetjen home to watch TV.

Councillor Fred Metz, who was out west of town Monday, stopped in at the Herbert Goetjen home on his rounds.

After the smoke and haze disappeared on Saturday night, we found that Councillor A. L. Hogg had retained his seat on the municipal council by a fair majority.

UNEARNED REBATE

The Scotman joined a card game where it was agreed each player would start by putting ten cents in the kitty. All did with the exception of the Scotman.

Not liking to tell him directly, the others pretended to argue among themselves as to which of them had not paid his stake.

The Scotman listened for a moment then quickly withdrew one of the dimes from the kitty and said: "If you're going to quarrel, I'm taking my money back."

If fifty million people say a foolish thing, it is still a foolish thing.

Some people don't have much to say, but you have to wait a long time to find it out.

tary premiums. The implication is that the people will be taxed by order of the commission, and not by action of their own elected representatives.

Now the members of the commission may have all the good judgment and common sense with which the government credits them, but they have no constitutional right of levying taxes. It is doubtful whether the government has any constitutional right to delegate the power of taxing to a non-elected body.

Another matter to which government and taxpayers might give some thought is the building of new hospital accommodation, urgently needed in many communities. Hitherto, appeals for hospitals have been generously answered by private contributors. But with the government making the taxpayers responsible for all hospital costs it is hardly reasonable to count on further private donations to such institutions. To do so would be as logical as to expect private charity to support the jails.

"WHO READS THE BIBLE?"

"Who reads the Bible anyway?" asked a well-dressed young man speaking to a group of boys. The young man had some money to waste. It was a surprise to the boys who had made him their hero, and also to mothers when a few days later they learned he had been put in prison. Whether he would read it or not he would find the Bible waiting for him in his cell.

A group were enjoying a friendly chat when one of the fellows made this remark: "I read the Bible in the hotel when I stopped there overnight, because there was nothing else to read." A little later he said: "Oh, I found it interesting." We are glad that there are people who make it their business to put Bibles in prison cells and hotel rooms. Some people have walked miles and some without food or rest to gain the privilege of reading the Bible for an hour or so. Those are the people who have handed down to us the most cherished values of life.

A speaker addressing a school room of some thirty odd children asked: "How many of you know the Twenty-Third Psalm?" Only one hand went up. How many know The Lord's Prayer? Only two hands went up. That of the same girl and that of her little sister. Both passages were repeated. Then another child asked, "Where can we find this?" When a group of children are asked, "Is there a Bible in your home?" the answer is so often, "We don't know." The Bible is often on the school desk, but unused because there are parents who object to having it read to their children.

The Communists do not want Bible knowledge because when one knows the Bible one knows the individual is of more value than the state. The practical materialists do not welcome Bible knowledge, because they too know that he who knows the Bible, knows that people have more worth than things, systems, fortunes and big business. He who knows the Bible knows the need of reforms. That will upset popular practices. Knowing the truth which brings people and nations true freedom, they seek to realize that freedom. Blessed, said Jesus, are they who have not seen me in the flesh but have believed in me and my words. His words are found in the Bible.

A young man with several university degrees said, "This faith idea that one finds in the Bible is all nonsense. You can have only blind faith in proven principles, and in known facts. Otherwise faith is a blind leader of the blind."

In 1921 Edison wrote, "We don't know one millionth part of one per cent about anything. We don't know what water is. We don't know what light is. We don't know what gravitation is. We don't know what enables us to keep our feet on the ground. We don't know anything about magnetism. We do have a lot of hypotheses about these, and that is all. Yet we do not let our ignorance of these things deprive us of their use. We exercise faith and these hypotheses work."

When we exercise faith in the Bible truth it works. Every time man exercises faith in the Bible, its workability and power become realities in his experience. The foundation of everything that can be called progress is faith plus knowledge, plus effort. The foundation of our Christian civilization is Bible knowledge, Godly faith and Christ-like effort.

If you were on a ladder, and the ladder was cut below the round on which you were standing, you know what would happen. That is exactly what will happen to every one of our Christian institutions and moral standards if we destroy faith, knowledge and spiritual experience as we find it in the Bible. If your hopes, satisfactions and joys are tumbling like broken ladders, undersign them with God's word.

God's Word is our great heritage
And shall be ours for ever;
To spread its light from age to age
Shall be our chief endeavour:
Through life it guides our way
In death it is our stay.
Lord, grant while worlds endure
We keep its teachings pure
Throughout all generations.
"The word of God Standeth
The word of God Standeth
Lord Standeth forever."

WHEAT PILE UP —

With Poland buying only half as much wheat from Canada as it did last year, and sales to other countries looking soon to be off, the carry-over at the end of the current crop year may be a record, reports The Financial Post.
It estimates carry-over next July at about 600 million bushels. Last year it was 540 million and the previous record was in 1954 when the total was 600 million bushels.

WEEDS IN BALED FEED: Several days ago a local district farmer brought to my office a specimen of feed that he had recently purchased. This was baled nicely, and at first glance looked like it might be good feed. However, on close examination it was found to contain excessive amounts of a weed we know as Wild Pansy. This plant looks very much like Chickweed but grows much taller, to a height of about 20 inches.

We carefully examined the weed plants and found them to contain an abundance of seed. The spread of this weed to a farm that is free of it would be a serious thing. Fortunately the farmer was alert and anxious to know about the type of weed and how to control it and he through his foresight, will save himself a lot of expensive weed control by adopting the proper course of action now.

If you are short of feed and must replenish your supply, make good and sure that the feed you buy DOES NOT contain foreign weed plants or seeds. This simple precaution can save you a lot of troubles and expense later on.

CHRISTIAN SCIENCE

God's infinite goodness will be brought out in the Lesson-Sermon entitled "Reality" at Christian Science services Sunday.

Scriptural selections will include the following from the Gospel of John (1:1,3): "In the beginning was the word, and the Word was with God, and the Word was God."

All things were made by him; and without him was not any thing made that was made.
Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (47:24-26): "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made."

The Golden Text is from Psalm (18:32): "It is God that girdeth me with strength, and maketh my way perfect."

"you can't beat experience"

For 26 years Cominco has been supplying Prairie farmers with fertilizers developed and manufactured in Canada to meet the needs of Prairie crops. You can't beat experience... and more than a quarter of a century of fertilizing experience stands behind every bag of Elephant Brand.

A continuing research program at Cominco has kept pace with changing needs and new fertilizing techniques. New products—better Elephant Brand fertilizers for every crop and soil are constantly being developed. And the effectiveness of every fertilizer in the Elephant Brand line has been proven by thousands of field tests and demonstrations.

For help with your fertilizer problems and to ensure you have the right fertilizer for your needs, see your Elephant Brand agent. Use his years of fertilizing experience as well as the experience of the Elephant Brand district supervisor, a trained agriculturalist. Make sure you get the first and finest fertilizers — and the best experience — in Western Canada!

No Reasonable Doubt Smoking Cancer Factor

NEW YORK — A study group of seven scientists said in a report made public Friday that "scientific evidence establishes beyond reasonable doubt that cigarette smoking is a causative factor in the rapidly increasing incidence" of lung cancer.

"Lung cancer occurs much more frequently (5 to 15 times) among current smokers than among non-smokers, and there is a direct relationship between the incidence of lung cancer and the amount smoked," the report said.

"It is estimated that on a life-time basis, one of every 10 men who smoke over two packs a day will die of lung cancer. The comparable risk among non-smokers is estimated at one out of 275."

The seven scientists were organized into "the study group on smoking and health" last June at the suggestion of the American Cancer Society, the American Heart Association, the National Cancer Institute and the National Heart Institute to review the effects of tobacco smoking on health.

A spokesman for the tobacco industry research committee said the committee had not seen the report and would have no immediate comment on it. The committee has said in previous statements that no positive link has been shown between smoking and cancer.

LIGHT YOUR WAY WITH BIBLE STUDY

An artist can take a 50 cent piece of canvass and paint a picture that is worth hundreds, perhaps thousands, of dollars. That's art.

Tennyson could take a worthless piece of paper, write a poem on it and make it worth \$65,000. That's genius.

A mechanic can take material worth about \$15 and make it into watch springs worth \$500. That's skill.

A black cow can eat green grass and convert it into white milk, on which rises golden cream, which we churn into yellow butter. That's transformation.

Some men can sign a check and make it worth several thousand dollars. That's capital.

A merchant can take an article that costs 75c and sell it for \$1.50. That's business.

Jesus Christ can take a blackened human soul, dip it into His own red blood and make it white as snow. That's regeneration.

But to experience this regenerating power of Jesus, you must come into contact with Him. You must let the Word of God dwell in you richly. You must recognize the blackness of your heart and know that "the blood of Jesus Christ cleanses us from all sin." During this Lenten season we must make the words of the hymns ours:

"Jesus, I will ponder now
With Thy Spirit me endow
For such meditation
Grant that I in love and faith
May the image cherish
Of Thy suffering, pain and death
That I may not perish."

FARM LOAN BILL INTRODUCED IN HOUSE

A resolution was introduced in the House of Commons last week which would renew the government's guarantee on bank loans to grain farmers and double the maximum size of the loan.

Under the new legislation farmers would be able to borrow up to \$3,000 on the security of farm-stored grain instead of the limit of \$1,500 which was in effect in each of the past two seasons. The loans would be available from September 1, 1957 to June 1, 1958.

The new measure would answer two of the main criticisms of previous legislation, i.e. the maximum loan was too small and the loans were not available early enough in the season to enable farmers to meet harvesting expenses. However, a third main objection that the interest rate at 5 per cent was too high has not been met. While the rate of interest will not be announced until later there has been nothing to indicate that it will be lowered.

The Wheat Pools of Western Canada have urged that the interest rate be lowered claiming that loans of this nature are not inflationary. In most cases the money secured is used to pay debts already contracted and not to buy consumer goods.

Borrowing is not a solution to the prairie farmers' problem today but for many it is a necessity when they cannot market their grain. They should not be forced to pay larger interest charges on top of their many other expenses. The Wheat Pools contend that the interest on loans made under provisions of this act should be no higher than that paid by the Canadian Wheat Board on the money it borrows to carry grain.

M.V.B.C. NEWS

From Our Own Correspondent

The A Cappella choir has just finished its first tour. On Friday afternoon they left for Acadia Valley. From there they went to Big Valley, Castor, Galahad and Camrose. It was quite successful and we are sure that by the time they sing at Didsbury on April 22 we will have the benefit of all they have accomplished on their tours. They will take another weekend soon.

Mrs. Marie Kagey, dean of women, spent the weekend with the Lynn Hunspergers. Miss Eby went to Red Deer to visit her nephew and niece there. Arthur Eby's look Rev. and Mrs. Doner, missionaries from Africa, to Banff on Saturday and remained in Calgary over Sunday. All because the choir was absent. It did afford a good break for some at least.

Four young people from the college will compete in the John Suter Speech Award contest on April 2 at 8 p.m. in Didsbury United Missionary church. Mr. Peter Waldin, director in speech, will also present his play put on by the speech class at this time. You will want to put this event on your calendar.

Four other young people have their sermons in for consideration to a number of judges. Two will be chosen to deliver these sermons. The try-out will be held in chapel April 4th at 11 a.m. The one taking first place will deliver that message in Didsbury United Missionary church on April 14 in the morning service. The one taking second place will present his in the Mountain View U.M. church that same morning. Add this to the list of interesting school closing events and try to be present at them all.

The Associated Students Body of Mountain View Bible College, under the leadership of its president, David Archer, has presented the names nominated for the offices in the council and very soon an election will be held by the students. Officers for the following year will have the opportunity to plan for the coming year in this way.

The college has been privileged to have Rev. and Mrs. Johnstone from India and Rev. and Mrs. Doner from Africa in their midst during the past couple of weeks. These fine young people hold places of real responsibility on their respective fields. Mr. Doner supervises the schools under the United Missionary Board in Africa, and Mrs. Doner has the supply depot in charge and does the books, looking after all financial matters concerning the missions.

Rev. Stanton was guest speaker in one of our channels last week. It was the first time that he had come to us and we appreciated his message to the students. Above dates of interesting events our readers will be interested to know that a Bible Conference will be held in United Missionary church beginning April 21 at 8 p.m. and continuing thru to Sunday night of the 21st. Rev. Ward Shantz, district superintendent of the Ontario Conference and president of Emmanuel Bible College, Kitchener, will be the guest speaker for the occasion. You will want to hear this good speaker.

On Sunday afternoon of the conference he will also deliver the Baccalaureate sermon in connection with graduation. This will be held at 2:30 p.m. On Monday evening, April 22 at 8 p.m., the annual commencement will be held in the church in which eight young people will receive their diplomas or certificates. One of them will receive the degree of Bachelor of Sacred Literature, having completed the four-year course offered by the college.

DOUBLES RATE OF INDEMNITY

Alberta Highways Minister Taylor has introduced a bill which would double the amount of motor vehicle accident indemnity insurance in each of the three insurance categories.

At present the rates are \$5,000 in the case of bodily injury or the death of one person in an accident; \$10,000 in the case of injury or death of more than one person; and \$1,000 in respect to property or vehicle damage. The new increase would become effective June 30, 1968.

GOVERNMENT TO AID COST OF RING ROADS

A new policy under which the province and cities would share the cost of by-pass and ring roads is being considered by the government, highways minister Taylor announced last week.

He also announced that future plans call for more four-lane divided highways in the province, and said the \$500,000 approach-road program this year will include linking Didsbury and Carleton Place with the divided No. 2 highway between Bowden and Crossfield.

Mr. and Mrs. Dean Stair and Donnie were visitors for several days recently at Patricia.

Mr. and Mrs. R. McMullen Sr. were recent Red Deer visitors. Mr. and Mrs. Tom O'Shea were Sunday visitors at the home of Mr. and Mrs. Joe McGaffin.

Kathy Fyten and Dickie Van Holland were recent overnight visitors with Jeannie Howton.

Anne-Marie McGaffin was a recent visitor at the home of Gloria Dick.

We were very sorry to hear that the former's parents, Mr. and Mrs. E. Johnson in Saskatchewan.

Mr. and Mrs. Johnny Howton, Danny and Jeannie, were Sunday evening visitors with Mr. and Mrs. Stanley Morrison and family.

We hear that Gene Dick has been doing a bit of wrestling at Water Valley.

The U.F.W. of the district recently showed films at the school in place of the tea formerly planned for at the Moncey home. Proceeds are to go towards missionary work. The next meeting will be held Saturday evening, April 6 at the home of Mrs. Lydia Teynor.

Material has been received from the W.C.T.U. in Didsbury and our contest is to be held April 26 at the Fallen Timber church at 8:30. Those wishing to have pieces to say please contact Mrs. Lydia Teynor.

We hear that Mr. and Mrs. Ray Teynor and family are back in the district. Welcome folks.

Billie Edgar was a recent visitor at the home of Gordon McGaffin. Miss Margaret Moncey, who is now working in Cremona was a visitor at her parental home over the weekend.

Mr. and Mrs. Dean Stair and family were visitors at the home of Mr. and Mrs. Joe Teynor recently.

Glad To Meet You!

Mike's wife was a caustic-tongued ever complaining wife and it was no wonder he soon became the town drunk. When Mike would reach the overflowing point, he would make his way home through the cemetery.

His wife noted this short-cut he used and decided to give him a good scare. So she attired herself in a white sheet and concealed herself behind a gravestone.

The clock was striking midnight as Mike came bobbing and weaving along the lane. As he approached his wife, he suddenly jumped out in front of him and began waving her arms and making weird sounds. "Who-oo-oo, I'm the devil!"

The fishman blinked his eyes once or twice in surprise and then extended his right hand.

"Shake hands," he said. "I married your sister."

It's amazing how much good you can do if you don't care who gets the credit.

ITS RECORD FOR GOOD PLANTING

Is Written in
Farm Account
Books
Everywhere!

JOHN DEERE "LL" Press Grain Drill

Proof of a good planting made possible with a John Deere "LL" Press Grain Drill is not hard to find. You'll find it written in terms of dollars and cents in the farm account books of grain farmers everywhere—in the bigger profits from bigger yields that owners of the "LL" are able to tally with every harvest.

There's a "reason why," of course, and it's simply that you can depend upon the "LL" for placing uniform quantities of seed

at an even depth in the ground and for packing the soil firmly over the seed. As a result, there is no retarded growth because of bunching and overcrowding, no waste of land because of skips or blowing. Valuable topsoil is kept at home, and moisture is conserved. Germination is speeded, and a healthier, more drought-resistant crop is developed.

Let us show you how to realize bigger profits from better planting with a John Deere "LL" Press Grain Drill.

RURAL TELEPHONE LOANS EXPLAINED

Loans to rural telephone companies under the Alberta government's proposed new revolving fund will be repayable at 4½ per cent and will be made for a maximum of 10 years.

The bill to set up the revolving fund was introduced in the legislature Monday. The government plans to put \$1,000,000 into the fund this year.

While the act would set the interest rate at 4½ per cent, it also would empower the cabinet to "prescribe such lesser rates or rates of interest as may, from time to time, be deemed necessary or expedient in the interests of rural residents."

It would authorize the provincial treasurer to establish the fund and advance whatever amount of money are required. However, the amount of the advances to the fund and outstanding at any one time could not exceed \$10,000,000.

The minister would recommend a loan when he is satisfied that a company's facilities "will comply with the transmission and construction standards recommended by the Alberta government telephone system."

The minister would also have to be satisfied that "the telephone subscription rates and charges for telephone services are and will remain such as will permit the company to establish and maintain an adequate depreciation reserve for the replacement of obsolete works and continued maintenance of its service to AGT's standards."

If a company is in default of repayment, the minister would be empowered to disconnect it from the AGT system.

TO CELEBRATE 50th WEDDING ANNIVERSARY

On the occasion of their 50th wedding anniversary, Mr. and Mrs. E. L. St. Clair of Olds will hold open house on Wednesday, April 3 from 2 to 5 p.m. Following a family dinner the evening reception will be held in the Elks hall from 8 to 10 p.m.

Mr. and Mrs. St. Clair, both natives of Red Oak, Iowa, were married in Calgary on April 3, 1907 and took up residence on a farm northeast of Didsbury in the Coburn school district, where they resided until their home was destroyed by fire in 1925. The family then moved to the Gore district, where they lived until retiring to their present home in Olds in 1948.

There are seven sons and two daughters, all of whom are expected to attend the anniversary celebration.
